The Value of the Silver Economy using the Gold of the Future

Your Partner for eHealth

longer better life

Your Partner for eHealth

More autonomy
More health
More life-quality

eHealth for:

- Seniors facilities
- Hospitals & medical practices
- Municipalities
- Enterprises

Senior citizens' facilities

Our approach

- A) Workshop «Perspectives of Active Assisted Living»
- B) Needs assessment and strategy development
- C) Selection process for suitable AAL technologies and services
- D) Implementation and education of the medical professionals and end users
- E) Evaluation of selected digital solutions

Advantages

- More health, safety and autonomy for tenants
- Reducing the burden on care staff
- Optimisation of support processes
- Contemporary service offerings

Project «Thurvita»

Thurvita is a non-profit organisation owned by the municipalities of Wil, Niederhelfenschwil, Rickenbach and Wilen in Switzerland. The main objective is to provide help and services for people in old age.

Example of an AAL solution from Easierlife:

- 1.Movement sensor
- 2.Door sensor
- 3.Emergency button
- 4.Base station
- 5.Alert
